Printing process

Prices shown are for unmounted 'C Type' digital chromogenic prints on gloss or luster photo paper.

Add 40% for giclée prints on fine art papers or canvas.

Many other printing substrates are available (fabrics, vinyl, backlit film, etc.). Custom mounting and framing is also available. Please inquire for details and pricing.

Print sizing

Most uncropped images use a standard ratio of 2:3 or 4:5. Cropping to other international standard sizes is possible for most images.

Larger sizes are also available for many images, including wall murals, building wraps and billboards.

Custom sizes and crop aspect ratios quoted individually.

Other pricing information

Select images—and limited edition prints—may have premium prices higher than those listed above.

Prices do not include applicable sales tax, shipping or special handling.

Volume discounts may be available and are offered on a per-project basis.

Limited Originals

For this exclusive Signature Collection, Nat's original abstract photographs are first printed on museum-quality canvas. Nat then hand embellishes each canvas by overpainting the photograph with clear acrylic gels and texturing mediums. The painting follows the contours of the photograph, greatly enhancing the texture and depth of the image. Other exotic materials including lava flakes, glass beads, gold foil, etc. may be used to finish each individual work, depending on the characteristics of the original photograph. This process results in one-of-a-kind, mixed media works. Below are guide prices for the collection; since each work is unique and may use different sizes, materials and processes, pricing may vary slightly.

Size (in.)	Retail Price
20x20	\$ 800
24x36	\$ 2200
40x60.....	\$ 6600

Creative Services

Including color consultation, file adjustments, changes to cropping, creating triptychs, etc. \$125 per hour
